Alumni Office Mission

One of the goals of the Alumni Office is to increase the opportunity for all of us to network with each other. Through the Internet, fax machines, and cell phones it is becoming faster and easier to bring us together. With nearly over 6,000 graduates scattered throughout the globe; the potential for business and personal connections is huge! If you are looking for a new job, researching what landscape company to call, or just meeting for a drink, think about your connection with Mercyhurst Prep first.

We encourage you to become an active alum by checking our web site and participating in some of the rewards offered. With your help we can accomplish many things. Many hands make lighter work.
